Also, what is the status of damage inventory information? I spoke Wande from FEMA, and he stated that he also needs more detail in the description of the damage.

Thanks

Karen

Nydia and I met yesterday and went over the status of our work. We have few outstanding items but the bill on debris is a big one.

Terrence, do you have any additional information regarding debris? If not when will we receive final invoices?

As you know we are very close to submittal deadline.

Thanks

Karen

Chris,

Do you know when we will see an invoice for your services. Our finance team is working with FEMA and we need the invoices.

Mr. Bailey,

AshBritt completed the right of way collection debris mission weeks ago. There was no debris left to collect and the City gave us no indication that private roads were still on the table. The Solid Waste Authority debris sites are no longer accepting storm related debris as their last day was November 4th to my knowledge. The trucks have been dismissed and the debris on the private roads should be collected as normal waste at this time. Let me know if you have any questions,

Regards,

Chris,

Enclosed is the last email on the subject. We are awaiting final determination on Ashbritt working inside gated communities.

Mr. Bailey,

My name is Chris Holsinger with AshBritt, i wanted to reach out to you asking if you could send me an email confirming AshBritt's completion of the project as i don't believe we received anything for the completion of the hurricane generated debris collection project.

Regards
