- Through an initiative supported by Community Benefit Funds provided by then Council Chair KaShamba Miller-Anderson, the Riviera Beach Public Library partnered with Inlet Grove High School this year to create little free library boxes to be distributed to local community businesses. Fourteen students worked with the Digital Design Instructor at the school, Ms. Arenthia Baker, and produced the following items which are to be filled with complimentary books from the library and to be distributed to business locations throughout Riviera Beach for city residents to read and enjoy.
