NOTE A: This is an estimated time line and is subject to change depending on Owner and Contractor input as well as the Site Plan Approval Process & Building Department work load.

NOTE B: Starting Design Development / Construction Documents prior to the Planning & Zoning Board Meeting and City Council meeting is at the Owner's risk. Any changes requested by the City during planning & zoning that affects the ongoing DD/CD process may result in additional service fees by the A/E team NOTE C: Demolition permit may be issued prior to the construction permit, start date is an estimate see NOTE A.

NOTE D: Schedule assumes 1-round of comments, additional round(s) of comments will increase schedule
