

# BID CHECKLIST

Bidders are expected to examine this bid form, attached drawings, specifications, if any, and all instructions. Failure to do so will be at the Bidder's risk.

All prices and notations must be in ink or typewritten. No erasure permitted. Mistakes may be crossed out and corrections typed adjacent and must be initialed and dated in ink by the person signing the bid. All bids must be signed with the firm name and by a responsible officer or employee. Obligations assumed by such signature must be fulfilled.

Each bidder shall furnish the information required on the bid form and each accompanying sheet thereof on which he or she makes an entry.

Unit price for each unit bid shall be shown. A total shall be entered in the amount column for each bid. In case of discrepancy between a unit price and extended price, the unit prices represented will presume to be correct.

Although the City generally awards based on a "lump sum" basis to the bidder submitting the lowest, most responsive and responsible total bid as shown on the Invitation to Bid cover page, the City may choose to award on a "per group" or "per item" basis. Therefore, bidders must submit with their bids, all pricing pages on the forms provided clearly indicating which items are bid and which are not. Failure to submit these pages will render such bid non-responsive.

Bid Check List:

Bidders are cautioned to please check their bid very carefully, using the following checklist:

-

Re: Pre-Qualification – Zabatt Engine Services, Inc.

It has been the privilege of Travelers Casualty and Surety Company of America ("Travelers")<sup>1</sup> to have Zabatt Engine Services, Inc. as a client.

It is our opinion that Zabatt Engine Services, Inc. is qualified to perform bonded work under contract in a single amount of approximately \$5,000,000 and aggregate amount of approximately \$15,000,000. At their request we will give favorable consideration to providing the required performance and payment bonds within this range.

Please note that the decision to issue performance and payment bonds is a matter between Zabatt Engine Services, Inc. and Travelers, and will be subject to our standard underwriting at the time of the final bond request. Our commitment on all final bonds is contingent upon several factors including out satisfactory review and acceptance of the final contract documents, bid results, financing arrangements and current financial information at the time of the bond request. We assume no liability to third parties if for any reason we do not execute said bonds.

If you have any questions or need any additional information, please do not hesitate to contact me.

Sincerely,

Travelers Casualty and Surety  
Company of America

# DRUG FREE WORKPLACE

Preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids, which are equal with respect to price, quality, and service, are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors has a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or gratuity services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this form complies fully with the above requirements.

**BID #1016-21-1 EMERGENCY GENERATORS AT PUBLIC WORKS, BROOKS  
CENTER, AND LINDSAY DAVIS CENTER  
RFI's**

**Zabatt Power Systems:**

1. Confirm missile impact generator enclosures are required. Confirm there are no remote annunciators. Confirm E-stops will be required (none shown).

**Answer: Missile impact enclosure eliminates the need for walls around generator. Remote annunciators are part of the generator package. They are to be installed in the building engineer's office of the building the generator is serving. There is also an auto dialer that calls a remote number to report generator status. E-stops are required and are part of the generator package.**

2. Brooks Center: Are we supplying the ATS as drawings conflict: E-1 Packaged Electrical System Note 1 states existing, E-2 riser shows 260 amp SER with 225 amp CB, please clarify.

**Answer: Note 1 on E-1 should not indicate transfer switch as existing. The riser diagram, which indicates a new transfer switch, is correct.**

3. Brooks Center: Panel feeding generator circuits: PES note 15 states new panel, lights, receptacles in new gen enclosure while E-2 shows circuits from panel LA?

**Answer: PES note 15 should not indicate a panel in the enclosure. Drawing E-2 is correct. The circuits are to be fed from existing panel LA as indicated.**

4. Brooks Center: How are we to deal with power outage for ATS install?

**Answer: Any power outage or shutdowns will be scheduled during the weekend days.**

5. Brooks Center: Are we to include mobile generator or can site be down for a day. Please clarify.

**Answer: Any power outage or shutdowns will be scheduled during the weekend days.**

6. Lindsay Davis: Panel feeding generator circuits same as Brooks above, PES note 15 vs E-2 shows new panel G.

**Answer: PES Note 15 should not indicate a panel in the enclosure. Drawing E-2 is correct. The circuits are to be fed from new panel G as indicated.**

7. Lindsay Davis: Please clarify, power outage question same as Brooks site above.

**Answer: Any power outage or shutdowns will be scheduled during the weekend days.**

8. Public Works: E-1 General note 8 states wire to be copper THWN, E-2 shows new wiring to be Aluminum XHHW-2. Clarify.

**Answer: General note 8 applies to any new wiring that is not specified differently.**

9. Public Works: E-2 shows 2000 amp generator breaker with five sets of 600KCM aluminum XHHW-2. This wiring only rated for 1700 amps. Clarify.

**Answer: E-2 indicates five sets of 600kcm aluminum XHHW-2 for the new emergency power feeder to match the existing normal power feeder. 600KCM XHHW-2 aluminum is rated for 385 amps.**

10. Public Works: Where are we feeding new panel in the generator from? Please advise.

**Answer: Normal and emergency feeders are rated for 1925 amps. Transfers switch circuit breaker trip should be adjusted accordingly.**

11. Brooks Center & Lindsay Davis: Dwg E-1; Transfer Switch Section; Note 7 states "It shall be possible to start and run the generator set for up to 72 hours and control the transfer of the load to the generator set". Confused about the 72 hours (is this a gas generator?). Maybe this note is concerning a function to exercise the generator. Just needing more clarification and/or details on this note 7.

**Answer: Note 7 refers to a switch on the remote annunciator that enables you to start the unit remotely. Because this is natural gas and an unlimited fuel supply, it is timed out to maximum 72-hour run when started remotely.**
