

"The Best Waterfront City in Which to Live, Work And Play."

CITY OF RIVIERA BEACH

TO: HON. MAYOR, CHAIRPERSON, AND CITY COUNCIL

THROUGH: JONATHAN EVANS, CITY MANAGER, MPA, MBA, ICMA-CM

FROM: TERRENCE N. BAILEY, P.E, .INTERIM PUBLIC WORKS DIRECTOR

SUBJECT: CITYWIDE PAVEMENT STUDY AND CAPITAL PLAN ANALYSIS

DATE: FEBRUARY 17, 2021

CC: GENERAL PUBLIC

Background:

The continuing services contracts for engineering and survey services approved by Resolution 110-20 allows the City to move forward with study, design, and planning services necessary for the management and oversight of City infrastructure. The City conducted a pavement evaluation and five-year maintenance plan in 2013 which was intended to guide City investment during the capital planning window.

As the Monroe Heights Project wraps up, the phase one roadway construction plan will come to completion. During discussion on future roadway plans, the Council requested clarity on the methodology used to select roadway projects. This robust discussion necessitates the need to update the pavement study to provide clear guidance on capital needs and priorities concerning the roadway program. Upon completion of the study, it is the intent of staff to fund projects in the priority ranking provided through the study process.

Citywide Goals:

This Item facilitates Goals #1 and #2

Goal #1 Achieve a Sustainable Economy

Goal #2. Build Great Neighborhoods

Budget/Fiscal Impact:

The fiscal impact of these renovations are funded within the existing operational budget.

Recommendation(s):

It is recommended that the City Council authorizes a work order to AE Engineering, a local Riviera Beach firm, to provide study and evaluation services in the development of a pavement analysis and capital plan.
