FROM: Mark Filla, Radio System Manager, ESS Division  
DATE: March 23, 2016  
SUBJECT: P25 Radio Analog Recorder Replacement

---

Assistant Chief Madden,

As you are aware Palm Beach County is in the process to migrate its current analog trunked radio system to a digital P25 format with a contract requirement to complete the new system and accept it by June 2017. In order to meet the project schedule it is necessary to cut over all system users to the new P25 core on or about August 1<sup>st</sup>, 2016. For this reason, as well as due to the technology change to the P25 format, it is necessary that the existing analog recorder currently in use by the City of Riviera Beach be replaced prior to the August 1<sup>st</sup> cutover so as to avoid loss of recorder coverage.

To assist with this issue, Palm Beach County staff has researched recorder options, and recommends that Riviera Beach City staff coordinates with their current recorder provider to get an IP recorder quote, as well as with Motorola's certified recorder companies listed below and evaluate the IP recorder options that will best benefit Riviera Beach. The following recorder companies are Motorola certified:
